

ERANET CRUE Funding Initiative for Research in Flood Risk Management

Kick-off Meeting of Research Projects Workshop Briefing

Thomas Deppe, PTKA-WTE

Projektträger
Forschungszentrum
Karlsruhe (PTKA)

lebensministerium.at

Vienna, 30 January, 2007

Goals of the Workshop

- **Identify potentials for collaboration between projects**
- **Collect ideas for networking within the Funding Initiative**
- **Collect ideas for improving the framework of the Funding Initiative**

Project Short Title	Partner	Country	Project Leader	Project topic	Main outputs / instruments
Simulation of Flood Risk	IWSOE Weimar	DE	Thürmer	Simulation of long-term effects of non-structural FRM measures	Method for ex ante evaluation of FRM measures; will be reported to stakeholders, managers, policy makers
	Wirtschaftsuniversität Wien	AT	Theil		
	University of Newcastle upon Tyne	UK-En	Dawson		
FLOOD - ERA	IOER Dresden	DE	Schanze	Risk perception of decision makers and its influence on FRM concepts	EU guideline on the assessment and improvement of management strategies
	UFZ	DE	Teutsch		
	Middlesex University	UK-En	Penning-RowSELL		
	BOKU	AT	Nachtnebel		
PRO_Floodplain	BOKU - University of Natural Resources and Applied Life Sciences Vienna	AT	Habersack	Water retention (floodplain restoration)	Synthesis (guideline) for practitioners and policy makers 3 expert workshops (France, Germany, Austria)
	University of Karlsruhe (TH)	DE	Dister		
	Université Marc Bloch Strasbourg	FR	Wintz		
Room for the River	Universidad Politecnica de	ES	Francés	Water retention (increase of infiltration; local retention; floodplain restoration)	Seminars for local flood managers in the pilot areas
	Vienna University of Technology	AT	Blöschl		
	University of Potsdam	DE	Bronstert		

Project Short Title	Partner	Country	Project leader	Project topic	Main outputs / instruments
EWASE	TU Darmstadt	DE	Schröter	Evaluation of early warning systems in flash flood regions	Concept/guideline for the assessment of EWS
	BOKU Vienna	AT	Nachtnebel		
	ProAqua GmbH	DE	Beyene		
	Universidad Politecnica de	ES	Sempere-Torres		
RISKATCH	BOKU Vienna	AT	Fuchs	Integrated FRM in upper catchment areas	Workshops for stakeholders and decision makers
	Technical college Deggendorf	DE	Metzka		
	Université de Technologie de	FR	Serrhini		
Small Urban Catchments	TU Hamburg-Harburg	DE	Pasche	FRM in small urban catchments (hidden watercourses and associated culverts)	Good Practise solutions for urban FRM Draft of a European framework for FRM in small urban catchments
	University of Manchester	UK-En	Douglas		
	BRE Scotland	UK-Sc	Garvin		
	CEREVE, Marne-la-vallee	FR	Schertzer		

Guiding questions

1. Potentials for collaboration between projects

- Common use of data or other resources?
- Methods which are applied by different projects?
- Models which are used by different projects?
- Interest in exchange of experiences concerning pilot areas?

Guiding questions

2. Networking within the Funding Initiative

- Planned meetings / conferences / workshops which might be interesting to other projects?
- Suggestions for extra meetings organised within the frame of the Funding Initiative (several or all projects)?

Guiding questions

3. Improving the framework of the Funding Initiative

- Communication: How can exchange of information within the funding initiative be improved?
- Dissemination: How can transmission of results into policy / into practise be fostered?
- Suggestions how the topic „effectiveness and efficiency of non-structural measures“ might be developed beyond the duration of the funding initiative

Technical Details

- Three discussion groups
- Each group is requested to nominate a rapporteur
- Session ends at 10.45, coffee break , 1 h plenary feedback
